The Assistant Manager of Data Governance supports the implementation of data governance and protection initiatives within the organisation. He/She collaborates with cross-functional teams to help establish data governance policies, standards, and procedures.

Job Responsibilities:

Reporting to Director (Data Governance and Protection), your responsibilities are to :

- Assist in the development and implementation of a robust data governance framework, including policies, standards, and guidelines to ensure data quality and compliance.
- Collaborate with data stewards across different business units to define data ownership, responsibilities, and accountability for data quality and integrity.
- Assist in ensuring data governance practices align with data privacy regulations (e.g. PDPA).
- Support the development and delivery of data governance training programs for employees to raise awareness and understanding of data governance principles.
- Work with relevant stakeholders to communicate the organisation's personal data protection policies to stakeholders.
- Plan and maintain a good filing system and management of digital documents and contents in the sharing platform provided.
- Provide other administrative support which includes managing meeting logistics, general correspondences, enquiries
- Participate in any other ad hoc projects and committees as assigned from time to time.

Requirements

- Bachelor's Degree in a relevant field (e.g. Computer Science, Information Management).
- Basic understanding of data governance principles.
- Experience in data management, data governance, or related roles is a plus.
- Good interpersonal and communication skills.
- Meticulous, self-driven, able to work independently and as a team.
