This role is responsible for carrying out daily procurement operations of the organisation, as well as other ad-hoc projects and duties.

### **Key Responsibilities**

#### Procurement

- Facilitate and drive cross-functional collaboration in joint purchases through effective communication and influence across internal stakeholders
- Review and process tender documents. Ensure full compliance to procurement policies leading to tender approval and award in accordance to approving and signing authority
- Perform procurement transactions in SIT's e-Sourcing portal (i.e. tender publication, issuance of tender corrigendum and clarification), contract award, PO creation and contracts management
- Verify that bids are evaluated fairly, review recommendation reports for approval and routing to tender board for approval
- Advise user divisions on procurement policies, appropriate method of procurement and workflow
- Identify value-added opportunities to streamline work processes and improvements
- Provide insight through the analysis of spend and supply markets to achieve demand aggregation and other initiatives that will improve overall efficiency and user experience
- Enhance sourcing and procurement related systems as and when required
- Provide end-to-end support, advice, and training on procurement policy, procedures and system.

#### Operations

- Assist in the yearly budget exercise
- Assist in validation of exceptions from Data Analytics Report
- Assist in both the internal and external audit including preparation of schedules or reports required for audit purposes and related consultancy work
- Assist in any other procurement related functions

#### Others

- Review processes and procedures from time to time and implement improvements to enhance efficiency
- Improve on internal control and ensure sound internal control are in place in all areas of Procurement
