**Job Description**

The Office of Agricultural Land and Resource Management seeks candidates for a Director position to provide leadership in the overall management of Ag Land Resource Management (ALRM) staff, budgets, and construction projects.

This position will also provide guidance in the administration of the ALRM work order system and information technology functions, Federal Excess Property inventory, engineering data interpretation, fleet maintenance and equipment inventory. Oversees the planning and execution of in-house construction projects in support of the College of Agriculture (CoAG), Alabama Agricultural Experiment Station (AAES), as well as other units across campus to include the repair, renovation, and/or new construction of Ag-related facilities and land management. Works closely with CoAG and AAES administrators in the development of comprehensive services for units related to AAES projects.

Office of Agricultural Land and Resource Management provides construction, earth preparation, irrigation systems, building, roads and ponds in support of the College of Agriculture and the Alabama
