holds the responsibility of supporting the division's endeavours in grants management and SIT's applied research initiatives.

### **Key Responsibilities**

- Provide support in leadership and strategic guidance to the Grants Administration team
- Enhance the grant management framework, governance, and administrative processes to support Applied Research, ensuring key stakeholders (e.g. Academic staff, Human Resources, Finance, CIT) are kept informed of changes
- Plan and leverage on IT applications to support the applied research efforts of SIT and grant management
- Support the daily management of the division, spearhead process enhancements, and oversee staff management
- Oversee the performance management of the Applied Research Office to ensure all KPIs related to applied research are accurately recorded in the respective databases. This includes aligning KPIs across various reporting levels (e.g. internal reporting at IRC, BOT, annual report and external KPIs)
- Other relevant duties and tasks as assigned

### **Job Requirements**

- A degree in Engineering, Science, Business, or an equivalent field, along with a minimum of 15 years of work experience, including at least 10 years in management and leadership roles
- Demonstrated leadership skills with a proven track record in project management, change management, and stakeholder engagement
- Substantial experience in grant management and/or strategy
- Good interpersonal, communication and organisational skills. Ability to collaborate effectively with both internal and external stakeholders is a must
- Resourceful and capable of working independently
- Proficiency in Microsoft Office applications
