electrical, plumbing, mechanical and HVAC, carpentry, roof, signage, painting, general trades, and automotive repair service and maintenance related operations.

- Develops and maintains a long-range maintenance planning program for all university facilities that utilizes a standardized facility condition assessment (FCA) program to inform the plan development. Integrally involved in the execution of FCA's for all AU organizations
- Provides reporting to AU leadership on the state of all university buildings.
- In partnership with Risk Management & Safety and the FM Safety Manager, establishes safety standards and safety training for maintenance work to be used by all AU units.
- Provides technical "reach-back" and engineering expertise to units outside of FM through the FM maintenance organization as well as through internal coordination with FM Planning, Design & Construction.
- Develops and maintains standardized KPIs and metrics to track performance.

Minimum Qualifications

Education: Bachelor's Degree in Engineering, Architecture, Building Science, or related field.

Experience: 8 years experience in leading maintenance activities in a multi-building campus environment. Experience shows increasing levels of responsibility and accountability.
