Job Description	

Digital Archivist

Indiana University

Reporting to the Director of University Archives and Special Collections, the Digital Archivist leads and supports the University's efforts to acquire, describe, preserve, and provide access to born-digital university records and papers of IU faculty, staff and alumni. The Digital Archivist will work collaboratively with the Director, the University Records Manager, Library Technologies staff and university partners to create workflows for ingestion, appraisal, preservation, processing, description and access to born-digital records throughout the university system. The Digital Archivist will take a leadership role in the acquisition of and management of born digital records within the university records management program and collection development process, maintaining regular communication with university staff and donors.

Responsibilities: Develops and implements policies and procedures that facilitates the acquisition, preservation, arrangement, description, and access to born-digital materials in accordance with emerging standards and best practices. In collaboration with the University Records Manager, provides guidance and assistance to university
