:

Manages and directs CVM's IT operations. Manages and directs UNIX/Linux based data processing system and workstation support for all of CVM. Supports IT requirements for instructional and research areas. Performs other duties as assigned.

**JOB DUTIES:**

35% - Essential - IT Leadership: Manage and direct all aspects of IT operations within CVM including staff and student personnel. Distribute assignments and identify both short-term and long-term planning for the unit. Advise upper administration of IT needs of the college, and ensure proper personnel are in place to meet the College's needs. Serve as the lead in all college related IT projects. Establish and maintain budget for CVM IT operations. Effectively manage staff within CVM IT and coordinate with departmental technical staff across departments.

35% - Essential - IT Support: Manage IT support for all research, instructional, and major marketing events for CVM. Fully responsible for IT decision making to fulfill requirements for all teaching locations, including clinical teaching operations, equine and food animal teaching sites, and ambulatory services. Oversee major IT facilities upgrades and installation. Make recommendations and provide guidance based on the instructional and research needs of all CVM sites.

10% - Essential - Vendor Management: Engage, coordinate with, and manage third party vendors in support of IT implementation efforts across the College working with internal central IT personnel to deploy, maintain, and enhance College systems. Ensure data security, confidentiality, and privacy. Mitigate IT risks, escalating critical decisions to appropriate stakeholders. Ensure compliance with university IT requirements for IT systems implementation.

10% - Essential - Technical Guidance: Provide technical guidance and expertise to faculty, staff and students in CVM. This includes guidance and oversight in regard to hardware, software compliance and licensing needs to effectively support research and classroom instruction in CVM. Coordinate with CCIT and legal counsel on licensing compliance issues. Provide consulting and technical expertise for all CVM Units. This includes architecting and managing Windows, Mac and Unix systems in CVM. Lead technical efforts for CVM to ensure members have the technical resources necessary to provide effective support for other staff members.

10% - Essential - Coordination: Ensure smooth operation and coordination with other technical groups on campus. Through coordinating with various constituency groups, establish and implement best
